Chew on This: The History of Gum

You might guess it's a custom dreamed up by a modern-day, real-life Willy Wonka, but people have been chewing gum, in various forms, since ancient times. There's evidence that some northern Europeans were chewing birch bark tar 9,000 years ago, possibly for enjoyment as well as medicinal purposes as relieving toothaches. The ancient Maya chewed a substance called chicle, derived from the sapodilla tree, as a way to quench thirst or fight hunger, according to 'Chicle: The Chewing Gum of the Americas' by Jennifer P. Mathews. The Aztecs also used chicle and even had rules about its social acceptability. Only kids and single women were allowed to chew it in public, notes Mathews. Married women and widows could chew it privately to freshen up their breath, while men could chew it in secret to clean their teeth.

In North America, the Indians chewed spruce tree resin, a practice that continued with the European settlers who followed. In the late 1840s, John Curtis developed the first commercial spruce tree gum by boiling resin and then cutting it into strips that were coated in **cornstarch** to prevent them from sticking together. By the early 1850s, Curtis had constructed the world's first chewing gum factory, in Portland, Maine. As it turned out, though, spruce resin was less-than-ideal for producing gum because it didn't taste great and became **brittle** when chewed. Curtis and others who'd jumped into the gum business after him subsequently switched to ingredients such as paraffin wax.

The next key development came when an inventor in New York, Thomas Adams, got his hands on some **chicle** through exiled Mexican president Antonio Lopez de Santa Anna. The exact details of how the two men connected are unclear, although they would've been in contact following Santa Anna's arrival in the United States sometime after the mid-1850s (before that, he led Mexican forces at the Battle of the Alamo in 1836 and served multiple terms as Mexico's president). Santa Anna wanted assistance-developing chicle into a substitute for rubber, and believed the riches he stood to earn would enable him to return to power in his homeland.

In the 20th century, chewing gum made William Wrigley Jr. one of the wealthiest men in America. Wrigley started out as a soap salesman in his native Philadelphia. After moving to Chicago in 1891, he began offering store owners incentives to stock his products, such as free cans of baking powder with every order. When the baking powder proved a bigger hit than the soap, Wrigley sold that instead, and added in free packs of chewing gum as a promotion. Competition also played a role in the development of bubble gum. Frank Fler, whose company had made chewing gum since around 1885, wanted something different from his **rivals** and spent years working on a product that could be blown into bubbles. In 1906, he concocted a bubble gum he called Blibber-Blubber, but it proved to be too sticky. In 1928, a Fler employee named Walter Diemer finally devised a successful formula for the first commercial bubble gum, dubbed Dubble Bubble.

In 1893, he launched two new gum brands, Juicy Fruit and Wrigley's Spearmint. Because the chewing gum field had grown crowded with competitors, Wrigley decided he'd make his products **stand out** by spending heavily on advertising and direct-marketing. In 1915, the Wrigley Company kicked off a campaign in which it sent free samples of its gum to millions of Americans listed in phone books. Another promotion entailed sending sticks of gum to U.S. children on their second birthday. Adams began experimenting with chicle but when his work failed to yield the desired results, Santa Anna abandoned the project. Adams eventually realized that rather than trying to create a rubber alternative, he could use chicle to produce a better type of chewing gum. He formed a company that by the late - 1880s was making gum sold across the country, according to Mathews. Chicle, imported to the United States from Mexico and Central America, served as the main ingredient in chewing gum until most manufacturers replaced it with synthetic ingredients by the mid-1900s.

Today, of course, gum is sold in a variety of shapes and flavors (although, sadly, Willy Wonka's three-course dinner chewing gum, said to taste like tomato soup, roast beef and blueberry pie, has yet to become reality). And finally, despite what you might've been told, if you swallow a piece of gum it's highly unlikely to end up stuck in your stomach for seven years. Even though gum base is indigestible, it passes through the digestive system harmlessly and is eliminated from the body just like other foods.

Ваш ответ частично правильный.

Grading type: Absolute position

Grade details: 3 / 5 = 60%

Here are the scores for each item in this response:

- 1 / 1 = 100%
- 1 / 1 = 100%
- 0 / 1 = 0%
- 0 / 1 = 0%
- 1 / 1 = 100%

Для этих элементов правильный порядок выглядит так:

1. In North America, the Indians chewed spruce tree resin, a practice that continued with the European settlers who followed. In the late 1840s, John Curtis developed the first commercial spruce tree gum by boiling resin and then cutting it into strips that were coated in **cornstarch** to prevent them from sticking together. By the early 1850s, Curtis had constructed the world's first chewing gum factory, in Portland, Maine. As it turned out, though, spruce resin was less-than-ideal for producing gum because it didn't taste great and became **brittle** when chewed. Curtis and others who'd jumped into the gum business after him subsequently switched to ingredients such as paraffin wax.

2. The next key development came when an inventor in New York, Thomas Adams, got his hands on some **chicle** through exiled Mexican president Antonio Lopez de Santa Anna. The exact details of how the two men connected are unclear, although they would've been in contact following Santa Anna's arrival in the United States sometime after the mid-1850s (before that, he led Mexican forces at the Battle of the Alamo in 1836 and served multiple terms as Mexico's president). Santa Anna wanted assistance-developing chicle into a substitute for rubber, and believed the riches he stood to earn would enable him to return to power in his homeland.
3. In 1893, he launched two new gum brands, Juicy Fruit and Wrigley's Spearmint. Because the chewing gum field had grown crowded with competitors, Wrigley decided he'd make his products **stand out** by spending heavily on advertising and direct-marketing. In 1915, the Wrigley Company kicked off a campaign in which it sent free samples of its gum to millions of Americans listed in phone books. Another promotion entailed sending sticks of gum to U.S. children on their second birthday. Adams began experimenting with chicle but when his work failed to yield the desired results, Santa Anna abandoned the project. Adams eventually realized that rather than trying to create a rubber alternative, he could use chicle to produce a better type of chewing gum. He formed a company that by the late - 1880s was making gum sold across the country, according to Mathews. Chicle, imported to the United States from Mexico and Central America, served as the main ingredient in chewing gum until most manufacturers replaced it with synthetic ingredients by the mid-1900s.
4. In the 20th century, chewing gum made William Wrigley Jr. one of the wealthiest men in America. Wrigley started out as a soap salesman in his native Philadelphia. After moving to Chicago in 1891, he began offering store owners incentives to stock his products, such as free cans of baking powder with every order. When the baking powder proved a bigger hit than the soap, Wrigley sold that instead, and added in free packs of chewing gum as a promotion. Competition also played a role in the development of bubble gum. Frank Fleer, whose company had made chewing gum since around 1885, wanted something different from his **rivals** and spent years working on a product that could be blown into bubbles. In 1906, he concocted a bubble gum he called Blibber-Blubber, but it proved to be too sticky. In 1928, a Fleer employee named Walter Diemer finally devised a successful formula for the first commercial bubble gum, dubbed Dubble Bubble.
5. Today, of course, gum is sold in a variety of shapes and flavors (although, sadly, Willy Wonka's three-course dinner chewing gum, said to taste like tomato soup, roast beef and blueberry pie, has yet to become reality). And finally, despite what you might've been told, if you swallow a piece of gum it's highly unlikely to end up stuck in your stomach for seven years. Even though gum base is indigestible, it passes through the digestive system harmlessly and is eliminated from the body just like other foods.

Text 2

What's the Real History of Black Friday?

It makes sense that the term "Black Friday" might refer to the single day of the year when retail companies finally go "into the black". The day after Thanksgiving is, of course, when crowds of turkey-stuffed shoppers descend on stores all over the country to take advantage of the season's biggest holiday bargains. But the real story behind Black Friday is a bit more complicated — and darker — than that.

The first recorded use of the term "Black Friday" was applied not to holiday shopping but to financial crisis: specifically, the crash of the U.S. gold market on September 24, 1869. Two notoriously **ruthless** Wall Street financiers, Jay Gould and Jim Fisk, worked together to buy up as much as they could of the nation's gold, hoping to drive the price sky-high and sell it for astonishing profits. On that Friday in September, the conspiracy finally unraveled, sending the stock market into free-fall and bankrupting everyone from Wall Street barons to farmers.

The most commonly repeated story behind the post-Thanksgiving shopping - related Black Friday tradition links it to retailers. As the story goes, after an entire year of being **in the red** stores would supposedly **go into the black** on the day after Thanksgiving, because holiday shoppers blew so much money on discounted merchandise. Though it's true that retail companies used to record losses in red and profits in black when doing their accounting, this version of Black Friday's origin is the officially sanctioned — but inaccurate — story behind the tradition.

Another myth has surfaced that gives a particularly ugly twist to the tradition, claiming that back in the 1800s Southern plantation owners could buy slaves at a discount on the day after Thanksgiving. Though this version of Black Friday's roots has understandably led some to call for a boycott of the retail holiday, it has no basis in fact. The true story behind Black Friday, however, is not as sunny as retailers might have you believe. Back in the 1950s, police in the city of Philadelphia used the term to describe the chaos that ensued on the day after Thanksgiving, when hordes of suburban shoppers and tourists flooded into the city in advance of the big Army-Navy football game held on that Saturday every year. Not only would Philly cops not be able to take the day off, but they would have to work extra-long shifts dealing with the additional crowds and traffic. Shoplifters would also take advantage of the bedlam in stores to **make off** with merchandise, adding to the law enforcement headache.

By 1961, "Black Friday" had caught on in Philadelphia, to the extent that the city's merchants and boosters tried unsuccessfully to change it to "Big Friday" in order to remove the negative connotations. The term didn't spread to the rest of the country until much later, however, and as recently as 1985 it wasn't in common use nationwide. Sometime in the late 1980s, however, retailers found a way to reinvent Black Friday and turn it into something that reflected positively, rather than negatively, on them and their customers. The result was the "red to black" concept of the holiday mentioned earlier, and the notion that the day after Thanksgiving marked the occasion when America's stores finally turned a profit. (In fact, stores traditionally see bigger sales on the Saturday before Christmas.)

The Black Friday story stuck, and pretty soon the term's darker roots in Philadelphia were largely forgotten. Since then, the one-day sales **bonanza** has morphed into a four-day event, and spawned other "retail holidays" such as Small Business Saturday/Sunday and Cyber Monday. Stores started opening earlier and earlier on that Friday, and now the most dedicated shoppers can head out right after their Thanksgiving meal. According to a pre-holiday survey this year by the National Retail Federation, an estimated 135.8 million Americans definitely plan to shop over the Thanksgiving weekend (58.7 percent of those surveyed), though even more (183.8 million, or 79.6 percent) said they would or might take advantage of the online deals offered on Cyber Monday.

Write your commentary on the article 'What's the Real History of Black Friday?'. Your commentary is to be between 180-200 words. You are not allowed to cite from the original text pieces longer than 4 words running. Your text should contain various points of view, including your own.

To fulfil the task successfully you are:

- **to briefly convey the content of the article**
- **to mention various/possible views of the issue**
- **to divide your text into logically connected paragraphs**

In the article the theme of the origin of Black Friday is touched. The article provides a handful of views concerning this topic.

First of all, the term itself dates back to 1869 when the crash of the American gold market occurred. This, in my point of view, is the most logical origin of the term.

Secondly, it is common knowledge that retailers figured in the history of the term too. As there were crowds of people eager to buy some goods after Thanksgiving, shops couldn't neglect their chance to take advantage of the customers and offered them profitable bargains. After Thanksgiving, stores, which tried to go into the black after the season of being in the red, abounded in discounted merchandise.

Moreover, the term "Black Friday" represented the chaos when tourists filled the streets of Philadelphia to watch the football game, which was crammed with merchandise. Despite this, the term successfully became popular. Some boosters wanted to replace "Black Friday", which had some negative connotations, with "Big Friday", but this never happened.

Now it is a four-day event called "retail holidays" because all shops enjoy a sales bonanza during this period.

Комментарий: Коммуникативная задача выполнена частично: собственное мнение выражено неполно, аргументы по первой точке зрения представлены слабо, вывод по проблеме не сделан- 8 баллов.
В композиции допущены незначительные лексические ошибки-9 баллов.
